

The best ERF?

A recent Super Ratings ERF Benchmarking Report found AUSfund's net benefit to members over 5 years, on an account balance of \$1000, to be the highest of all ERFs analysed, providing more than \$583 to members.

That is:

- 2.5 times the benefit provided by AMP
- 78% more than Australian ERF
- more than 3 times the benefit of NPT
- 92% more than Super Trace

...AUSfund was again proven to provide the best net benefits to members of all account sizes on an ongoing basis and was most active in the identification of lost members and provision of services to super funds and members.
